COMPUTER USE POLICY

Addendum 1: Minor Children

General Provisions

In order to facilitate the usage of library resources for students of Allen Park Public Schools, the computers in the Teen Area can be accessed by any student ages 9-17. Because APPS is a Schools of Choice district, students may or may not be in possession of an Allen Park Public Library borrower’s card. Therefore, access is open to all students, ages 9-17, according to the following limits:

- Access to the Library’s research databases;
- Access to the Michigan eLibrary (“MeL”) databases;
- Access to Microsoft Office Suite; and
- Access to Allen Park Schools’ student links.

Specific databases are subject to change.

Access to other school links (such as Cabrini, Inter-City Baptist, and recognized virtual high schools) will be considered upon request of a parent/guardian or school official.

Minors may access the internet computers in the Adult area only under the direct supervision of their parent or guardian. The responsible adult must login as him/herself (guest passes are available at a cost of $1.00 each), and remain seated next to the minor for the duration of the session.

Adopted: 11/01/2016
